Frequently Asked Questions:

Can you logo and number customer supplied uniforms?

Yes! We are happy to provide a quote to logo and number customer supplied uniforms. Embroidery is also an option for warm ups and bags. Pricing is based on quantity per logo, and number of colors in the logo for screenprinting. Embroidery pricing is based on quantity, and number of stitches in the logo.

Can we combine styles and colors to achieve a quantity price break?

Yes! Jerseys can be combined assuming they are getting the same logo. Ink color changes are an additional \$5.00 per color change. Same with spandex shorts. You can combine styles.

Do I have to order through this website?

No - we can handle this in person and via phone/email. We realize that this can be complex depending on the size of your program so whatever is most comfortable for you, works for us. Our phone number and my email are referenced above.

How do you keep big orders organized?

Typically we provide a form for each player to fill out. We create our master spreadsheet from these. Then, in the event of a discrepancy, we can go back to the original document. We can also provide sizing samples to insure that the players choose the right sizes.

Do you handle Spirit Wear?

Yes! This can be handled one of two ways. We can prepare an order form and those can be batched and produced. You collect the money, and you pay the bill. Or - we can set up a web store for your club (if club size warrants). This allows families to place their orders online and pay via credit card. As the club director, you wouldn't have to worry about placing orders or collecting money. We would still batch for production, and orders would be individually packaged, and sorted by team for easy distribution. There is no charge to set up the store, and it can also be set up as a fundraiser, kicking back 10% to the organization.

Can you do this for other sports?

We have experience with soccer, little league, basketball, and football. We'd be happy to research other sports as well to see if we could assist with those team outfitting needs as well.

What can I expect when I receive my order?

You can expect an order that is packaged by player and boxed by team. Our goal is to make distribution as easy for you as possible!
